

## **A BRIEF WRITE-UP ON IMPLEMENTATION OF NLUP WITHIN SAIHA DISTRICT**

### **1. District-Wise Training Schedule.**

A one-week's District Level Training was conducted during December 7-12, 2009 at DC Conference Hall, Saiha. The training programme was attended by three (3) VC Members from each village under the district. Training was imparted by officials from all NLUP Line Departments viz., Industries, Agriculture, Horticulture, Sericulture, Fisheries, AH & Vety and Soil & Water Conservation Departments.

### **2. Village Level Training.**

Village Level Training was conducted for Saiha Town area during January 19-23, 2010 at DC Conference Hall, Saiha. The training was attended by all NLUP beneficiaries and members of the concerned Village Level Implementing Committees. Trainees were given orientation on selection of trades/activities by officials of line Departments; and trade selection was done afresh. This has changed the trend of trade selection.

However, rural areas have not been covered as instructed by the higher authority due to the decision to recast the beneficiaries selection.

### **3. Formation of Village Level Implementing Committee.**

Village Level Implementing Committee has been constituted in every village under the district, and all of them are functioning properly till date.

### **4. Selection of Beneficiaries.**

Selection of beneficiaries was done in each village by the concerned Village Level Implementing Committee. However, it has been noticed that a full member meeting was not convened for this purpose in a few villages due to late formation of VC body.
